

AS ECONOMICS PROGRAM LEARNING OUTCOMES

Program Required Courses	The student will be able to apply concepts related to the economizing problem.	The student will be able to interpret the impact of macroeconomic, microeconomic, and trade policies.	The student will be able to interpret economic conditions using graphs and tables of data.	The student will be able to assess economic conditions using mathematics.
ECON 2301	I	I	I	I
ECON 2302	R	R	R	R
ECON 2311/GEOG 2312	M	M	M	M
ACCT 2402			I	
ACCT 2401			I	
MATH 2312				I
MATH 2413				I

Assumption: Students will take courses in the preferred sequence

ECON 2311 is cross-listed as GEOG 2312 in the ACGM

I = Introduced

R = Reinforced

M=Mastered

Under each PLO enter an I, R, or M in the row for the listed course where the PLO is either Introduced, Reinforced or Mastered. Core courses outside of the discipline should not be included unless it is tied to the PLO's for the program.

All courses listed should be mapped for I, R, & M if it is part of the program.

The course that the PLO is mastered in will be the course that the program assessment occurs in for that PLO
