**GRAYSON COLLEGE  
DISCUSSION OF BUDGET FOR 2015-2016 FISCAL YEAR**

**SUMMARY**

The 2015-2016 budget provides financial stability despite challenges in funding while continuing to implement initiatives begun in prior years. The budget is balanced, meaning that requested expenditures are matched by anticipated revenue.

Funding challenges include an anticipated drop in enrollment and cuts in funding from the State of Texas. A solid increase in taxable values will provide additional property taxes to off-set these challenges. Also additional revenue will come from increased fees to students and from start of differential tuition in the nursing program.

The budget provides an across-the-board raise for employees. Other new items include: (1) adding two positions to the Center for Workplace Learning; (2) adding two full-time police officers; (3) adding a music instructor position to be shared with Austin College, (4) the creation of a receptionist position in the president's office, and (5) the creation of a transcriptionist position in the registrar's office. Also, the budget includes a modest start of a program to give an incentive to employees to continue their education.

The budget continues work on major initiatives that began in the 2014-2015 fiscal year. These include the implementation of Achieving the Dream, the conversion to a new learning management system (LMS), the establishment of an early college high school, and the conversion to a new enterprise resource (ERP) computer system.

Significantly, the 2015-2016 budget continues to provide for future capital needs by transferring \$1,000,000 from the Unrestricted Fund to the Plant Fund.

**UNRESTRICTED FUND REVENUE**

Revenue in the 2015-2016 Unrestricted Fund budget is higher than that in the 2014-2015 budget, increasing \$1,148,173, or 4.35%. Increased revenue from local property taxes is the primary reason for the increase, along with a smaller increase from student fees. There will be a decrease in revenue from the State of Texas.

The three major sources of revenue for the Unrestricted Fund are local property taxes, tuition and fees, and funding from the State of Texas. There are also several minor sources of revenue, grouped in the All Other category.

	<u>Approved 2014-15</u>		<u>Proposed 2015-16</u>	
Local Taxes	\$ 10,099,050	38.2%	\$ 10,174,806	38.0%
Tuition and Fees	8,259,890	31.3%	8,712,468	32.5%
State Appropriations	7,501,692	28.4%	7,378,388	27.5%
All Other	547,125	2.1%	524,950	2.0%
	<u>\$ 26,407,757</u>	<u>100.0%</u>	<u>\$ 26,790,611</u>	<u>100.0%</u>

Information on Unrestricted Fund revenue from the 2015-2016 budget and the 2014-2015 budget are presented in graphic form below.

Over time, funding from the State of Texas has dropped as a percentage of total unrestricted revenue. Its replacement comes from local property taxpayers and from charges to students.

**Local Property Taxes:** This is the single largest source of revenue in the budget for the Unrestricted Fund, bringing in 39.7% of the total.

Total taxable values are approximately \$400 million higher than the draft budget forecast. This growth allows the total tax rate to decrease from \$.1815/\$100 value to \$.1814/\$100 value while bringing in more revenue. The growth came from the continued construction of a power plant, from higher valuations of existing residential properties, and from a substantial amount of new construction. These increases were partially off-set by lower values on oil and gas property.

**Tuition and Fees:** This is the second largest category of Unrestricted Fund Revenue, making up 31.6% of the total. Revenue from this category is projected to increase \$452,578, or 5.5% despite a projected 5.0% drop in enrollment. The increase in this revenue in the face of declining enrollment reflects the institution of differential tuition for the nursing program and a new technology fee as well as the increases in the general use fee and some laboratory fees.

**State Appropriations:** Support from the State of Texas based on the college providing instruction is shown in this category and discussed here. The State of Texas also provides funding for employee benefits. That funding will be discussed in the expenditure section of this report.

Appropriations from the State of Texas are now the third largest category of Unrestricted Revenue, making up 26.8% of the total.

Funding for instruction is based on a multi-faceted formula to reward community colleges for success as well as activity. The success funding contains various components such as completion of developmental courses, the accumulation of credit hours, or the completion of a certificate or degree. The activity funding is based on the number of contact hours that the college provides to students. Additionally, each Texas community college receives \$500,000 each year in base funding.

The 2015-2016 fiscal year is the first of a biennial appropriation from the State of Texas. Grayson College improved more in the measures for success funding than almost all other community colleges. However, our continued decline in enrollment led to an overall drop in our regular appropriation. Regular funding for instruction declined \$223,305 to \$7,228,388.

Grayson College's viticulture program was successful in receiving an increase from \$50,000 to \$150,000 in a special appropriation to be used in its outreach program, and that funding is also included in this State Appropriations category. These funds must be spent on the viticulture/enology program.

### **UNRESTRICTED FUND EXPENDITURES**

Expenditures in the 2015-2016 Unrestricted Fund budget are \$1,148,173, or 4.35%, higher than that in the 2014-2015 budget.

The largest group of dollar increases are related to employment, including an across-the-board wage increase, an increase in the cost of benefits, and the creation of new positions. Another significant increase is the transfer from the Unrestricted Fund to the Plant Fund, made possible by the unexpectedly large increase in taxable values. The 2015-2016 budget also includes \$35,000 to expand the scholarship opportunities available to employees and their dependents.

The following table shows the relative size of each category of expenditures in the 2014-2015 budget and the 2015-2016 budget.

There is much similarity between the percentages of expenses in the 2014-15 budget and the 2015-16 budget. Personnel related expenditures continue to be the largest category, as should be expected in an educational organization.

The relative size of expenditures in the Unrestricted Fund for the 2014-2015 budget and the 2015-2016 budget are shown in graphic format below.

**Salaries Non-Adjunct:** Salaries for full-time, permanent employees are \$600,045, or 5.7%, higher in the 2015-2016 budget than they are in the 2014-2015 budget.

Wage increases are a major reason for this increase. One facet of this increase is the adjustment of the salary scale so that all full-time positions are paid at least \$10/hour. This only affected the maintenance department since all other workers were already paid more than \$10/hour. This increased salary

expense is \$27,660. The minimum of \$10/hour for those on the maintenance scale resulted in an average wage increase of 5.3% for those on that scale.

Another aspect of the wage increase was the across-the-board raise. This wage increase is an average of 3.0%, administered as follows. Grayson College has four salary scales, one each for faculty, clerical, maintenance and lab. Each scale provides larger wage increases for less tenured employees and lower wage increases for more tenured employees. The faculty, clerical, and lab scales were adjusted so that the step increase for current employees on that scale average 3.0%. Additionally, administrators and some other employees are not included on a scale. For those positions, the wage increase is to be 3.0%. This added \$190,609 to salary expenses.

Additionally, seven new positions were created in this budget. They are listed above and add \$208,527 to salary expenses.

The addition of two police officers will allow the Main Campus and the West Extension to have around-the-clock coverage by a full-time, certified police officer. It will also allow the chief to have time to address issues in emergency management and mandated programs for the prevention of sexual violence on campus. Each of the new officers is to be paid \$29,000. The cost of these new positions will be partially funded by a \$35,000 reduction in the budget for part time (adjunct) officers.

The CWL is recovering from a period of under-performance. Two new positions are needed to facilitate that recovery. One position is in the Health Science – Continuing Education department and will provide direct instruction by a college employee, rather than contracting with an outside company for this service. It is included in the budget at a salary of \$38,000. The other position is the Miscellaneous Mechanical and Repair – Continuing Education department. It will provide the resources to market this program to local employers. It is included in the budget at a salary of \$36,000. Each of these positions is expected to bring in more revenue than they cost in expenditures.

Adding a music instructor will help this developing program have the resources needed for growth. Sharing the position with Austin College will increase the educational opportunities for students from each institution. The salary of this addition is included in the budget at \$20,000.

Additionally, the budget includes a transcriptionist in the registrar's office and a receptionist in the president's office. The transcriptionist will make sure that transfer credit is added in detail to a student's Grayson College transcript. This will provide detail that is vital to getting the appropriate benefit from the new computer system. The salary for this position is \$38,000. The receptionist in president's office will free the assistant to the president to be more involved in projects and initiatives.

The reorganization of the instructional and student services areas did not add a significant cost since it was funded primarily by the consolidation, re-purposing and elimination of positions, including two vice president positions, the testing coordinator, the director of student success, an LVN faculty position, and the director of distance learning.

Finally, the 2015-2016 budget is based on 99% of the salary of each approved position, to recognize that there will be vacant positions at various times during the fiscal year. The 2014-2015 budget was calculated at 98% of each approved position.

**Salaries Adjunct:** Salaries for part-time instructors and other part-time employees are \$108,213, or 3.6%, lower in the 2015-2016 budget than they are in the 2014-2015 budget. Since enrollment is projected to decrease by 5%, the need for part-time employees should be less.

**Employee Benefits:** The cost to Grayson College to provide benefits to its employees is budgeted to increase \$389,010, or 12.1%. This is the combination of: (1) that increased cost of the health insurance plan overall, and (2) the decreased funding from the State of Texas for pension and health insurance due to our decrease in enrollment.

**Departmental Operating Expense (DOE):** The 2015-2016 budget contains \$88,757, or 5.2%, more in this category as compared to the 2014-2015 budget. The biggest increase in this category is from the Viticulture/Enology department and is based on the additional funding for this program from the State of Texas, earmarked for this program. The next biggest increase is in the Public Information/Marketing department and provides \$50,000 to be used in the celebration of the college's 50<sup>th</sup> anniversary. As a group, the other departments and programs had a net decrease in DOE.

**Professional Fees/Contract Labor:** The decrease in this category primarily reflects a lower request from the CWL departments.

**Service Contracts:** The budget for this category is up \$115,540, or 17.8% from the 2014-2015 budget. This increase reflects the transition to the new ERP and the subsequent need to carry services contracts from the old system (POISE) and the new system (Three Rivers) simultaneously. Except for that transitional item, service contracts overall are budgeted to decrease. Additionally, the future on-going service contract with Three Rivers will be less than the college was paying for POISE.

**Transfer to Plant Funds:** The 2015-2016 budget is the second to contain a transfer from the Unrestricted Fund to the Plant Fund. This reflects the discipline to continue to provide resources to address deferred maintenance items and other capital needs without the issuance of additional debt.

**Conclusion:** The 2015-2016 budget is balanced, meaning that anticipated revenues equal proposed expenditures. It continues to provide resources for capital needs and to fund initiatives that were begun in the prior fiscal year.

## **SUMMARY – AUXILIARY FUND**

The goal of the Auxiliary Fund is to provide resources to the college through related business-like operations.

The 2014-2015 budget contained a major change in the auxiliary operation that is most successful financially, the bookstore. The transition to Follett has gone well and this operation continues to produce positive financial results.

The food service and housing operations produce positive financial results, although on a smaller scale than the bookstore.

The 2015-2016 budget assumes that the golf course will close at December 31, 2015. That assumption is based on the recent history of operating losses and the failure of various initiatives to restore the course to profitability. If the Board of Trustees desires to keep the course open, the budget could be revised prior to its final approval.

## UNFUNDED CAPITAL NEEDS

The administration has identified the items on this page as capital needs. No definite plans are in place to fund these items in the 2015-2016 budget year. Deferred Maintenance refers to higher cost repair projects that are needed but not critical. Fund Raising refers to identified opportunities to solicit funds from grants or contributions to build capital projects. The Technology Projects shown are larger dollar items that will be needed within the next three years, in addition to the normal replacement cycle.
